MAY 7, 2010

April Demo

Unfortunately, Ruth Ann and I were on vacation in New Mexico for the last meeting and wasn't able to see Terry Morrill do his demo.

As I understand, Terry turned a hollow vessel in the method of Molly Winton. He used pyrography and carving. I also understand he didn't get one catch. Way to go Terry.

If you are unfamiliar with Molly's work, her website is

www.truningmaven.com. Great stuff. She was also featured on the cover of the new Packard Woodworks catalogue. Inside there is a list of pyrographic tools she has made.

Again, sorry we missed the demo and great work Terry.

Also sorry about no pics. I'll try to gather some up for the next newsletter.

May Meeting

The May meeting will be next Tuesday, 11 at 7:00 pm. As Andy said in his last missive, he will be demonstrating his pole lathe. This is a machine for all you health nuts. Not only does it allow you to create spectacular art, but it also gives you a cardio workout.

I've seen it before and it is worth seeing again.

Andy has suggested that there will be a cookout on the back deck of the department and is calling for side dishes. Ruth Ann is making macaroni salad, sorry no cookies.

If you intend to bring something,

please let Andy know. You can call him at (724) 972-7229 or email him at andy.scott@kiski.org.

Since the meeting is supposed to start at 7:00, please come early for social time so that everything can get going on time.

Upcoming Events

The first weekend in June is Canal Days in Saltsburg. We will have a booth there for Saturday. If you are interested in helping out contact, Andy, myself or Bob Wilson. If you would like to show up but not turn, that's cool. Just show up and help promote the club. We will be there from 8:00 am until at least 5:00 pm. Think about it, it's really a great time.
