## September Meeting

We were fortunate to have Craig Smith with us last month. Craig is well known for his Windsor Chairs, and small turnings such as boxes and ornaments. He is also the master of the platter, which was the basis of his demonstration.

Craig brought with him a number of logs that he had cut in different manners to demonstrate different ways to cut a log to get the most and best wood for the project. After discussing what to

do with the wood, he proceeded to mount a piece to begin turning a platter. In the following picture, you can see some of his platters in the background.

blank to create one of his cool platters.

While turning, Craig pointed out features to look for in the wood to get the best presentation for the work. Due to time constraints he was really unable to completely finish it.

The platter was offered up for the raffle and Bob Wilson won. When he gets it finished I'm sure Bob will bring it in to show the group.

Craig mounted and turned a

## Club Tee Shirt, upcoming events, new look

Last month George Walker and Ron Gindlesperger wore their new club Tee shirts. For those of you who weren't there, here are some pictures.

Hopefully, we'll order the shirts after the next meeting so that we might get them by the November meeting. As I said earlier, small,

medium, large, and extra large are \$11, 2X is \$13 and 3X is \$14. Payment for the shirt will be due when we receive the shirts.

I will be demonstrating turning a coffee scoop at this meeting. This employs spindle turning, sphere turning, and bowl turning. It's not hard and it's a lot of fun.

You will have noticed the new addition to the newsletter on the left. This is a list of web sites that may interest you. If you have any sites that you think should be included, please let me know.

The next meeting is October 12 at 7:00 in Sprowls hall at IUP. See you there!
