Mike Stadler Presents Multi-axis Turning and Lamination Bending

Mike Stadler, past president and founding father of Indiana County Woodturners Association, conducted the

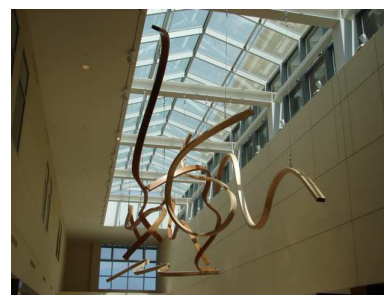

meeting in November. Mike received his BA and MFA from IUP and is currently employed as studio technician in Sprowls Hall.

Mike demonstrated turning multi-axis spindles in order to create interesting effects. Note the "shadow" of the spindle to the right.

Turning off center with multiple axes ends up with a pleasing aspects when

viewed from different vantage points as seen in the picture on the right. This may be one way to create a Christmas tree.

Mike showed us how he created this bent laminations for

the sculpture that he was commissioned to create for the Butler County General Hospital. Not only is it quite creative, but it involves a lot of time and

Miscellaneous News

The club tee shirts came in at the last meeting. Most everyone who ordered one received theirs if you didn't get yours, see me before the meeting. As discussed previously, they are green with gold lettering, and gold with green lettering. We still have a number left so if you want one and didn't get one, check with me at the next meeting. To recap the prices, M,L,XL are \$11, 2X are \$13, and 3X are \$14.

The presenter for the meeting in December will be Linda VanGehuchten. She will be demonstrating the ins and outs of thin wall bowl turning. Linda is an office in the Butler County Woodturners, and a past

member of ICWA. Linda has also been the artist in residence in the Art department of IUP. She has been a member of the board of the Association of American Woodturners and a long time member of that organization.

We can expect a very informative and well presented demonstration. So be sure to come and bring a guest or two.

See you on Tuesday, December 14. The meeting will begin at 7:00 pm so come early for cookies, coffee, and good conversation.
